And the next day it snowed—sun out!

65th regiments and the Government at Washington still stand!

The local option election in Mason county is over and yesterday's results are given in figures, above and below.

The large vote was a surprise to all and the dry majority of 333 is quite enough to settle the matter as to the county unit question.

Now is a good time to bury the hatchet and let peace reign as between the people of Maysville and the people in Mason county.

The Public Ledger ventures to say to the splendid men and women of Mason county that now that they have won a most notable victory and wiped the legal sale of liquor from Maysville it would be well to stop their fight against Maysville.

Let the war cease and let's all work and pull together "to save our boys" from the bootlegger and the blind tiger and the mad order houses, which will offer every inducement to the chronic booze fighter, be he young or old, male or female.

LET THE DRY'S BEWARE THAT THEY DO NOT ABUSE THEIR VICTORY.

IT PAYS TO BE SENSIBLE IF ONE CANNOT BE MAGNANIMOUS.

Notes on Remarkable Campaign.

The vote in Mason county yesterday on the local option question was perhaps the largest polled in this county on any question in recent years. Owing to the good weather very few voters were prevented from going to the polls.

"Dry" forces were well organized in both city and county but their most effective work was done in the county as may be seen by the result of the vote. Several precincts which the "wet" forces expected to carry by a large majority, either went "dry" or went "wet" only by a few votes.

Nope! That wasn't a "dry" hand and parade last night. That was only the band of Coburn's Minstrels giving the public a little treat. The "dry" forces made no public demonstration over their victory.

Although several times yesterday it was reported that some of our most prominent citizens had been arrested for vote-buying, no authentic report of such proceeding has reached our circles in this city this morning.

The election in practically every precinct in both city and county was marked by most excellent order. Few, if any, of the expected and predicted "scrap" came off.

MR. ALFRED FORMAN

Son of the Late Col. Samuel Forman and Native of Mason County Died At Norfolk, Va.

Mr. Alfred Forman, only son of the late Col. Samuel Forman of near Minerva, died at his home in Norfolk, Va., Sunday afternoon after a long illness, aged 68 years. His wife and one daughter, Miss Anna Seward Forman, survive.

Mr. Forman was born on his father's farm near Minerva in 1846. He came of a noted Mason county family and was an uncle of Representative Stanley Forman Reed of this city.

Burial at Norfolk today.

DIVORCE SUITS FILED IN MASON CIRCUIT COURT.

In Circuit Court yesterday, F. W. Brewer filed suit against Belle Brewer for divorce. He alleges that they were married on October 3, 1911, and that she told him, and he believed, that her former husband, James H. Stewart, was dead.

He alleges that she was guilty of lewd and lascivious conduct and he was forced to leave her. He further alleges that her first husband, Stewart, was neither divorced nor dead when he (Brewer) married her.

Mrs. Elizabeth Williams filed suit for divorce from her husband, Frank Williams, yesterday. They were married here on August 26, 1896, and lived together until January 1909. They have four children living. She charges non support.

She asks for the custody of their children, for an allowance for the present, for alimony and for the costs of the action.

PRES. WILSON SAW LINCOLN BEACHY'S AERIAL GYMNASICS

Washington, September 28.—Lincoln Beachy, in an aeroplane, looped the loop four times over the dome of the capitol today while President Wilson watched the performance from a White House window. Beachy then finished the performance by turning two loops over the White House and then more loops, flying low over the business section of the city, while Government officials and thousands of spectators held their breath.

ON THE FIRING LINE.

The Democrats propose to issue a campaign hand-book citing alleged achievements of the party. In the estimation of the people, there are four achievements to be credited—or perhaps charged is the better word—to the party in power. The first "achievement" is the Underwood tariff law. This law has closed thousands of factories, reduced hours in others, set at idleness more than a million men and brought stagnation to the business world. It doesn't pretend to be a protective measure. More than that, President Wilson, in his message of September 4, virtually confesses to Congress that the Underwood law has failed in its primary purpose of raising revenue for the Government at a time when the country was at absolute peace.

The second "achievement" is the banking and currency law. It has been on the statute books since December, 1913, but it is not yet in operation. There are three possible reasons for this. There is either something wrong with the law, or there is something wrong with those who are to administer it, or the administration does not dare put it into operation long before election for fear it will be demonstrated as big a failure as the Underwood tariff law.

The third "achievement" is the repeal by the Democrats of the Panama free tolls, thus repudiating the policy of their party, the President's own public policy and the expressed will of an overwhelming majority of the American people.

The fourth "achievement" is the proposed appropriation by this Congress of a hundred million more than was appropriated by the last Congress, and yet that Congress was condemned in the Baltimore platform for vagrancy.

The President or anyone of his party leaders or a minute the American people will not wish between real achievements and simply gaudy tricks.

Lord was asked to save Sodom if ten righteous men could be found in it. Ten Democrats finally been found to make up the Federal Reserve Board, and yet the new "non-partisan" currency law has been amended once and another product of amendment has been made, before it has had any effect at all.

The same short-sighted vision of insolvency and onerous debt that has made the Democratic South risk its financial prospects year after year practically the cotton crop alone so that it is now facing tremendous possibilities of loss because of the European war, is the same political economy that framed the Underwood tariff. And the failure of the Underwood tariff to provide revenue against emergencies now brings a whole nation face to face with the always obnoxious and to be dreaded war tax. The tariff, according to a famous Democratic authority, may be "a local issue" in the making, but it is a national issue after it is made and fails. It is merely the same old inevitable logic of results of the same old Democratic business incompetency.

The Government has voted to return to the State of Louisiana its Ordinance of Secession, passed in the troublous days of '61. Doubtless, it will simply be changed in its text a little and passed again in a secession from the Democratic party that has ruined Louisiana's principal industry by the Underwood tariff.

When former President Taft happened to refer to himself as the "titular leader" of the Republican party, the Democratic papers made an awful howl. They said he should be President of the American people rather than leader of a party. President Wilson now calls himself "the leader of a great party" and the same editors applaud. Are there two standards of political morals, one for Republicans and one for Democrats?

The war, which has brought a new tax upon us, the pressure of public business, disturbed trade conditions and important trade opportunities did not prevent the President from making members of his Cabinet away from their duties and sending them to make political speeches in the Maine congressional campaign. And then the Republicans elected three out of the four Congressmen.

THE BAYONET.

Another war theory is being shattered by the dramatically grim realities of the fighting on the River Aisne in France. We confidently were informed that it would be a physical impossibility for contending forces to reach the point of a hand-to-hand struggle for mastery.

Despite the magazine ride, with its range of two miles, field artillery and shrieking shrapnel, we are told that time after time the issue of mastery was settled by "cold steel."

We mournfully talk of the "days of chivalry" as if martial heroism were a relic of bygone ages. How may one imagine more reckless daring, more sustained courage than is involved in either pushing home or receiving a bayonet charge?

The individual, human factor still is the deciding element in war. Hellish instruments of destruction born in the genius of perdition are not all. "The race is not always to the swift, nor the battle to the strong." Indomitable bravery still is a factor.—Commercial Tribune.

HOW TO TELL A GOOD AUTO DRIVER.

It has now come to be known that a good auto driver is recognized by the noise he doesn't make. If he permits his engine to run away and disturbs the whole Main street he is a novice; but if he stops and starts in an easy, quiet manner, he is an expert. Some who have had machines for years are still on the novice list, while others have become experts in a few weeks.—Potts, of Colfax, Ill.

THE DAILY NOVELETTE.

Papa's Consent.

She certainly did love him,
Although she was quite tickle;
She craved about it was,
My, my! 'Twas but a nickel!

In a soft, but clinging Chamberlain gown of Mexican lavender, Phyllis Kelly never looked lovelier. Ethelbert Swiggins had been sighing all evening as he gazed at her in the dim light of the parlor.

"Miss Kelly," he said at length, hesitatingly, "Miss Kelly, do you think it would be possible for me to see your father for a moment or two?"

A glow filled the beautiful girl as she read the feverish light that filled his eyes.

"Certainly, Mr. Swiggins," she replied sedately, and left the room in a dignified manner, but Swiggins could hear her running through the hall. Presently Mr. Kelly came in, and after a short conversation with the young man, patted him on the shoulder and again quitted the room, calling his daughter back as he did so.

"It's getting late, Miss Kelly, I must go," said Swiggins. There was a smile of triumph on his face. "Shall I find you at home on Wednesday night?"

She smiled shy acquiescence, and, after seeing him to the door, rushed back to her father.

"Now, now," interrupted Mr. Kelly, "you must not ask questions—Mr. Swiggins wanted to see me on a matter which for the present must remain a secret."

"Please tell me, father," she begged. She begged so hard that at last he said: "Oh, well—if you must know, he wanted to borrow a nickel to get home with."

TOBACCO

Promises Heavy Yield—Estimated at More Than Two Hundred Million Pounds

Mt. Sterling, Ky.—A careful study on tobacco conditions in the burley belt by men engaged in the business brings out the statement "the best burley crop ever produced in Kentucky." This seems to be somewhat extravagant when the fact is known that the acreage was pronounced short and the year unseasonable for the work as well as the culture of the weed. Never in the history of the crop in Central Kentucky has there been such an abundance of the weed, especially in fields that six weeks ago indicated almost complete failure.

In Bath and Nicholas counties, where it was said about the middle of August that there would be practically no tobacco, estimates are now of 77 per cent. average, with a 90 per cent. yield.

In Fleming and Mason counties, that about the same time had as many discouraged tobacco men as one would want to come in contact with during a month's ride, growers now predict an immense yield. In Fayette, Clark, Madison, Lincoln, Garrard, Anderson, Woodford, Bourbon, Scott, Harrison and Grant counties the same story is told, and the production in all these sections is much better than was ever anticipated by growers at setting time.

In Montgomery county the yield is far beyond expectations and the crop the best ever grown in the county, which has been a tobacco-producing county for many years. The yield in the county will average over 1,000 pounds per acre, with some fields in disheartening yield of 2,000 pounds or over.

The quality of the weed all over Central Kentucky is very fine, with broad leaf and stalks topping extremely high. Cutting has been in progress for three weeks and some growers are becoming a little nervous for fear of frost on some tobacco green, but in the main all over the burley belt, the crop has been allowed to get good and ripe before being put into the barns.

Some growers have finished the work of cutting and housing and the tobacco which has been cut some time, is curing out in a very satisfactory manner.

The very large crop, coupled with the amount on hand, according to Government reports, does not indicate a high price for the weed, and from the most careful survey of the situation it is the opinion of an expert buyer who gets the best, that it will take an exceptionally good crop, carefully cured and prepared and sorted in a masterly manner to average 15 cents per pound all around. This buyer, who has no study and business of handling tobacco for 30 years, stated that it would be to the grower's interest to handle his tobacco carefully and only sell one load at a time, and not glut the loose leaf markets at their opening sales.

The outlook is for a good year for tobacco growers and warehouse men all over the state. Tobacco men have begun to "clean house," and making arrangements for the opening of the loose leaf markets, which will probably be in every county about December. There is no question but that the crop is enormous in pounds for the season, and excellent in quality. The burley yield will be over 200,000,000 pounds.

MRS. ROSA P. McDOWELL

Tells of Canadian Affection For The Monroe Doctrine—Former Maysville Lady.

The following letter from Mrs. Ed ward McDowell, formerly of Maysville, now of Hamilton, Ontario, who is a constant reader of The Herald will be of interest here:

"I wonder if Judge Kerr realizes what a very live thing the Monroe Doctrine is to the Canadians. Several Canadian papers (that are not particularly fond of the U. S. A. either), commented editorially and with great satisfaction on the fact that Germany could neither seize Canada, as Uncle Sam and the Monroe Doctrine would take care of that.

"Over one thousand men have left Hamilton for Valparaiso where the Canadian troops are mobilized. They raised \$200,000 in three days here, for the National Patriotic Fund; and expect to raise two more funds, one for the Red Cross and one for local purposes. Although it has never been published in the papers, England took all of her Hindoo troops through Canada to France. Everyone is talking about the large number of long trains that cross the continent from Vancouver to Quebec with the blinds drawn and no signs of life outside of the train cars. I wish papa had lived to see Germany get her whipping and France recover her long lamented lost provinces—Alsace, Lorraine.

"Most sincerely yours,
"ROSA PICKETT McDOWELL.
"Hamilton, Canada, Sept. 15, 1914."
—Lexington Herald

Mrs. McDowell is a former Maysville girl, is a daughter of the late Dr. Thos. E. Pickett and a sister of Mrs. Geo. T. Harbour of this city.

Mrs. McDowell is a true daughter of Old Kentucky and the South and her utterances show her ability and patriotism.

MAYBE IT'S TURNING TO GOLD.

(Augusta Chronicle.)
Tobacco in this section, both on hills and the river bottoms, began to turn yellow last week, the coloring appearing first on the tips of the leaves, gradually extending over the entire leaf, the weed becoming very yellow in two or three days. Old tobacco raisers are divided as to the cause for this, some claiming that a slight frost did it, others that the moisture had all gone out of the ground, and still others insist that the unusually hot sun during a portion of last week did it, but all are of the opinion that it will not injure the quality of tobacco, one grower being of the opinion that the weed will have a better color when cured. The color is entirely different from that of ripening tobacco. No one remembers of seeing growing tobacco take on this shade of yellow heretofore.

SOME QUEER ECONOMY

Democratic Congress Pledged Economy But Have Increased Government Expenses on Every Hand.

Washington, Sept. 26.—Considerable amusement prevails in Washington because of the economy issue raised by the Democrats of Iowa in the coming campaign. Even Democrats here are wondering how far the Democrats of Iowa will get on this issue.

It is recalled that the Democrats at Baltimore wrote in their National platform a denunciation of Republican extravagance and said: "We demand a return to that simplicity and economy which befit Democratic government and a reduction in the number of useless offices, the salary of which drains the substance of the people."

While the Democrats came into power on that platform, instead of reducing the number of offices they have increased them in practically every department of the Government. This administration will go down in history as the most extravagant the country ever had.

Take the Treasury employees at Washington, for instance, when the Democrats came into power there were 3,183 persons there; instead of the Democrats reducing the number of these employees, as promised, Secretary McAdoo asked for an increase of 358 of Treasury employees in Washington alone. When the Democrats came into power they found a field force in the Treasury Department of 1,497 persons, and under this economy program of the Democrats, Secretary McAdoo asked for an increase in the field force of 678 persons. Think of it, an increase in the Treasury Department of 938 persons.

In these two instances, "Democratic economy" will cost the Government over \$1,750,000 in increased salaries alone. Watch their extravagance in these other directions.

In view of the record of this Democratic Congress, it is difficult to conceive of the Democrats securing votes anywhere on an economy platform. The only way will recognize that this economy pledge is only "mollasses to catch flies."

GOOD RESULTS

From Anti-Hog Cholera Serum—Treatment Given in the South Cutting Down the Loss from this Disease.

Washington, D. C.—The treatment of hogs exposed to the risk of contagion from hog cholera with anti-hog cholera serum has saved all but 2.27 per cent in the Southern States, according to reports received by the U. S. Department of Agriculture from local agents engaged in demonstration work in this section.

These reports show that the county agents inoculated, in the year ending June 30, 1914, a total of 31,636 hogs, that were in good health at the time, but were exposed to the disease. Of this number only 787 died. This loss of 2.27 per cent is regarded as highly gratifying evidence of the value of the preventive treatment with anti-hog cholera serum.

THE SALUTARY EFFECTS OF MUSIC.

To what are the beneficial effects of music due? Darwin, who never rested until he could explain a thing, if it were explainable, could nevertheless no more explain why musical tones in a certain order and rhythm afford pleasure, than we can account for the pleasantness of certain odors and tastes. "We know that sounds, more or less melodious, are produced during the season of courtship by many insects, spiders, fishes, amphibians and birds." After all, says The Journal of the American Medical Association, we need go no deeper than an adequate explanation than that influences, such as music, which are agreeable are therefore salutary, and music is agreeable because its component tones are regular, periodic vibrations, even auditory waves precisely so many to each note, being in this regard unlike noises, which are irregular, dissimilar, conflicting vibrations. Sound waves impinge on the hearing sense, whence the perception is conveyed to the brain. The benignant influence of music physically is by the transmission of its influence from the cerebrum through the sympathetic system, which directs the various organs. Thus not only is music psychic for the soul, dissipating mental depression, soothing psychic perturbations, but its influence may also enhance nutrition, further digestion (as by the "river music" of the French) and restore organic equilibrium. Indeed, the entire working of the human mechanism, physical and mental alike, may be lubricated by a stream of music, which art and science should therefore have a place in the medical armamentarium.

You never can tell. Many a man has been praised to the skies, only to come down with the proverbial dull, sickening thud.

RECEIPTS OF OUR PIONEER MOTHERS

for the home treatment of disease were wonderfully dependable. True, they knew nothing of drugs, but owed their success to the roots, herbs and barks of the field. It is interesting to note that Lydia E. Pinkham's Vegetable Compound, the most successful remedy for female ills we have, was originally prepared for home use from one of these receipts. Its fame has now spread from shore to shore, and thousands of American women now well and strong claim they owe their health and happiness to Lydia E. Pinkham's Vegetable Compound.

WARD TESTIMONY

Many Maysville Citizens Have Profited By It.

If you have backache, urinary troubles, days of dizziness, headaches or nervousness, strike at the seat of the trouble. These are often the symptoms of weak kidneys and there is grave danger in delay. Doan's Kidney Pills are especially prepared for kidney ailments — are endorsed by over 30,000 people. Your neighbors recommend this remedy — have proved its merit in many tests. Maysville readers should take fresh courage in the straightforward testimony of a Maysville citizen.

Henry Gallenstein, blacksmith, Poplar St., Maysville, Ky., says: "Doan's Kidney Pills are the best of kidney remedies. I have used different kinds and no other has ever equalled this one. When my kidneys were out of order and I had pain in my back, I heard of Doan's Kidney Pills and used them. They stopped the pains and my kidneys became strong. The cure has been permanent."

Mr. Gallenstein is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches — if your kidneys bother you — don't simply ask for a kidney remedy — ask distinctly for Doan's Kidney Pills, the same that Mr. Gallenstein had — the remedy backed by home testimony. Patterson Will Attend Hearing of Cash Register Appeal.

Accommodations in one of the first hotels of Cincinnati are being negotiated for by representatives of John H. Patterson, President of the National Cash Register Company, of Dayton, for the week of October 5. The attorneys for Mr. Patterson and a number of his officials will present arguments during that time to the United States Circuit Court of Appeals on the appeal taken by Patterson and others from fines and sentences imposed by Judge Hollister in February, 1913, upon their conviction of conspiracy and restraint in trade in cash registers in violation of the Sherman antitrust law.

It is reasoned that Mr. Patterson desires to have those of his company who were convicted with to appear before the Court in order that the Court may see what class of men have been involved.

HAYSEED ECONOMY.

A called meeting of the Bracken Fiscal Court was held on Monday, to consider a new contract proposed by the Falls City Construction Company, for the erection of the new court house. After considerable discussion it was decided to finish the work under the old contract as agreed, with one change, in stead of using Bedford stone for the exterior pressed brick are to be used; this lessens the price to \$16,000, the old contract calling for \$17,500. Work will be started on the courthouse at once. With the \$15,000 subscribed as a court house building fund by individuals in the county and almost 5,000 on hand, it is thought the structure will be put under roof. At a previous meeting of the court an order was passed, allowing the parties that furnished the \$15,000 interest at the rate of 5 per cent, to be paid out of the courthouse building fund each year as collected.—Brooks ville cor, Augusta Chronicle.

"WET" OR "DRY"?

Exciting Local Option Contests Take Place Today in 12 Counties—257 Saloons Involved.

It's all over but the voting.

Mason county and eleven other Kentucky counties today are in the throes of local option elections, which at least will mark the end for the present of this intense personal, religious and political proposition that always engenders never-ending bitterness.

It's a toss up which way Mason will vote today as both sides are claiming it. The city of Maysville is reported to be wet by 600 majority. We'll hear to night.

The twelve counties voting today are: Anderson, Bell, Boone, Bourbon, Carroll, Clark, Fayette, Henderson, Mason, Montgomery, Scott and Shelby. The business of 257 saloon keepers is at stake in the election if the Court of Appeals, which undoubtedly will be called upon to pass upon the result, whichever side wins, sustains the county unit law which makes the county unit in such elections.

If the court fails to sustain the law the eighteen saloons of Paris and the nine in Mt. Sterling are safe for three years at least, as both those towns Saturday declared for the continuation of the open saloon, though it is stated that the Mason county organized effort in either direction, preferring to make their claims of election to be held today.

In the election at Paris Saturday the 26 votes and the drys 79. In the vote was 473 for the wet and 2 for the drys.

Counties Which Will Vote.
Counties in which elections will be held today are: Boone, Carroll, Clark, Fayette, Henderson, Mason, Montgomery, Scott and Shelby. The business of 257 saloon keepers is at stake in the election if the Court of Appeals, which undoubtedly will be called upon to pass upon the result, whichever side wins, sustains the county unit law which makes the county unit in such elections.

ANOTHER NEW WAREHOUSE NEARING COMPLETION.

The large brick tobacco warehouse at Col. Thomas Gray, being erected in Oklahoma, south of Forest avenue, is nearing the roofing point, and when completed will make a decided improvement in that growing suburb. It will give the residents there a splendid roadway, something that has been needed ever since there has been people living there, and it also has given them fire protection, which in turn will make the property there more valuable to the owners. Good for Colonel Gray.

American exports to Europe in August were \$58,259,619 less than for the same month a year ago, the slump being attributed to the war.

DRY PARADE

Saturday Drew An Immense Crowd to Maysville

Ideal Weather and Much Enthusiasm Marked Big Occasion

Maysville was filled as never before with men, women and children brought together in a determined effort to show their stand against the saloon.

The parade was led by the children of Maysville and the county, only a small per cent. of Maysville children participating, for reasons to be explained later. The Helena, Wehonia, Maysville, Washington, Dover, Minerva, Murphysville, Plainville, Germantown, Trumbull, Sardis, Jersey Ridge, indeed all the schools in the county were represented. A temperance float at frantically decorated, was followed by an exquisitely decorated auto carrying four pretty girls in Grecian costumes carrying golden bowls of water held aloft. When the W. C. T. U. auto with officers of the order, next an artistically decorated auto in which hunting and Gold, on rod, this was followed by a long line of automobiles, many of them decorated and then carriages and buggies. Many men and women on foot took part in the parade. Three brass bands furnished music and the voice of the children joined in singing "Mason's going dry," and the rally cry of "Who are we? Who are we? We are Mason's pride and we are going to make Mason County Dry."

The colored people who took part in the parade made a most creditable showing, by their good appearance and dignified bearing.

Rev. Litteral mounted on a dashing brown horse made a splendid marshal. He was assisted by a number of young men also mounted. The weather was auspicious and with the large enthusiastic crowd, points to a stirring time today.

The order of the parade follows: Rev. J. M. Litteral, mounted, Grand Marshal.

German town Band, Washington School, Springdale School, Shannon School, Maysville City School, Pleasant Ridge School, Moransburg School, Murphysville School, Salem School, Rectortown School, Eastland School, Wehonia School, Hill Top School, Flemingsburg High School, Mason County Health League Representatives.

Alderdeen Sunday School, Taft Military Band (colored), Colored Schools, Colored Voters.

Rev. Hagood, and Mrs. Anna Perkins, Marshals, State W. C. T. U. Auto.

Then followed a long line of automobiles decorated beautifully, men women and children in buggies, on horseback and on foot.

Editor Hiram Unley of the Flemingsburg Times-Democrat was in the parade in his Ford and carried a banner telling of what Prohibition had done for Flemingsburg.

Rev. J. M. Litteral was Grand Marshal of the parade and the following young men on horseback were the other marshals:

Messrs. Frank Nash, Ray Nauman, Franklin Slye and Howell Richardson.

The parade formed at the Third Street M. E. Church, marched to Wall, down Wall to Second, up Second to Bridge, up Bridge to Third, down Third to the Courthouse and disbanded there.

At the close of the parade a large mass meeting was held in front of the Courthouse where some telling "Dry" speeches were made by the following distinguished gentlemen:

Rev. Lloyd and Rev. Baumann of Flemingsburg; Hon. Baughn of Portsmouth, Ohio; Rev. J. A. Davis of Brooksville; Rev. Holloway; Rev. H. B. Wilhoite, and Rev. L. M. Hagood.

While these gentlemen were speaking at the Courthouse other speakers were addressing large crowds of people on Market street.

Hon. Emerson R. Ballard of Crawfordville, Ind., made two strong and forceful speeches in the Courthouse Saturday; one in the afternoon and one at night. He also spoke to a crowded house at the Courthouse Sunday evening at 8 o'clock.

H. C. Stewart, a colored editor and lecturer of Chicago, spoke to a large crowd at the Courthouse Sunday afternoon. This speaking was primarily for the colored voters and was well attended.

Rev. L. M. Hagood spoke at the corner of Market and Second streets late Saturday night.

Rev. H. B. Wilhoite spoke at the corner of Third and Market streets, Sunday night at 9 o'clock.

Mrs. Seldon Ibramel of East Second street is visiting in the county.

GIVEN \$10,000 DAMAGES

Against The C. & O. For Loss of Leg and Foot—John B. Shaw Awarded Big Sum.

In the Mason Circuit Court Saturday John B. Shaw was given a verdict against the Chesapeake & Ohio Railway Company for \$10,000. Mr. Shaw was formerly a baggage-master on the road and while switching the train at the depot here was run over and had one leg cut off and the other badly mangled.

Mr. Shaw had been in the employ of the railroad company for 23 years and this was his first accident.

The accident occurred on June 14, 1913.

The case came under the Federal Employers' Liability Act and involved some very fine points of law. The hearing began Tuesday morning and was concluded Saturday afternoon. The jury was out one hour and returned a verdict for the plaintiff for \$10,000. Mr. Shaw sued for \$50,000.

The company was held guilty of criminal negligence and the above judgment rendered. A. D. Cole was the attorney for Mr. Shaw and Attorneys Worthington, Cochran and Browning represented the railroad company.

The case was a hard fought legal battle, each side contesting every point vigorously.

RIVER NEWS

Navigation is entirely suspended for all points in upper Ohio River from Cincinnati on account of extreme low water.

The mammoth towboat Sprague reached Memphis Saturday on the way to New Orleans with a tow of coal.

This is one of the old-fashioned low water seasons in the Ohio River. The old river men predict extreme low water during the month of September and October. It has been known to run into December or until snow falls.

The little "Gasoline" towboat Tango that went to the stranded Maysville pocket steamer Chilo, on Nine-Mile Sunday, Thursday, unloaded all the freight that was on the steamer on two barges and released the steamer Chilo, which went to Chilo, Ohio, and laid up. The Tango went to Maysville with the freight.

Aircraft Continues Dropping Bombs in Belgium and Paris—Explosion Reported to Have Occurred Near American Quarters in the French Capital

Two Men Killed in the East and Three in Warsaw

London, England, Sept. 26.—Along almost two-thirds of the great battle line across Northeastern France, the armies of the allies and Germany fought fiercely today, at some points with the bayonet, and tonight statements from both sides are worded with the optimism which has characterized all these official pronouncements. It was agreed that the allies had continued their advance.

The French claim "marked progress," and the German announcement from Berlin, though insisting that the advance had been repulsed, nevertheless referred to it as an advance. Elsewhere along the battle front neither side seems to have achieved any notable success.

Of the German bombs thrown, none seems to have done extensive damage. One man is reported to have been killed in Belgium and one in Paris. The explosion in Paris, however, fell near the quarters occupied by many Americans.

There is an unconfirmed report that an attack on Antwerp is impending. Neither army has achieved anything notable. The allies claimed to have thrown back the advance of the crack Prussian guard and the Germans in turn today with a weaker force their right has checked the advance of the allies.

WITH WAR EIGHT WEEKS OLD GERMAN LOSSES ATE 73,210.

Berlin, Sept. 27.—Two new lists are sent here contain 9,633 names and to increase the total losses of the Germans in the war to 73,210 killed, wounded and missing.

Germany declared war on Russia eight weeks ago today and her average weekly losses in the war have therefore been 9,153.

The latest lists show increasing mortality among the officers. In some cases almost all the officers of several regiments are listed as killed or wounded.
